

Regulatory Specialist (m/f/d) (fulltime, 40h per week)

c-LEcta is a leading industrial biotechnology company that applies best-in-class technologies to efficiently provide customized enzymes and microbial strains for industrial applications. The company covers the value chain from product development to commercial production of high-value biotech products, with a key focus on regulated markets.

We are looking for a committed

Regulatory Specialist (m/f/d)

c-LEcta is looking to recruit a talented Regulatory Affairs professional to strengthen its international regulatory activities. You will be responsible for the REACH compliance of the company's products. In addition, you will support global regulatory activities related to the food market both in EU and third countries. This highly varied role comes along with excellent career opportunities. You will be actively supported by an experienced team in a friendly working atmosphere.

Tasks and responsibilities:

- Provide advice on EU REACH obligations and compliance strategies
- Prepare, submit and follow up REACH product registration applications
- Review and monitor relevant legislations and regulations (EU and non-EU)
- Perform literature searches, data evaluation and analysis
- Contribute to regulatory dossier writing
- Provide regulatory advice to R&D and manufacturing

Required Skills:

- Academic Degree (Master or PhD) preferably in Biology/ Biotechnology or Chemistry, or comparable education and experience
- Working knowledge of regulatory affairs for regulated product classes and specifically of REACH regulations
- Ideally some knowledge of the EU regulatory framework for food
- Understanding of chemistry, molecular biology, toxicology studies and risk assessment principles
- Understanding of the science and technology of the company's products
- Experience in working both autonomously and as part of a team
- Very good communication skills in English and German
- Excellent technical writing skills (English)

We offer a modern and team-oriented working environment to develop your creative potential and responsibilities within an internationally operating biotechnology company.

Applications

If this interdisciplinary challenge appeals to you, please apply online until 31st of July 2019 with your complete application documents as well as your earliest starting date and salary expectations at jobs@c-LEcta.com in English or German language.
